

3/1/12

Dear ANDREA

Thank you for your recent letter, sorry it's taken so long to reach me, but that's the way the prison is, lazy as hell, unless they want to screw your case, then they'll bust their day after day like our ~~prison~~ ~~prison~~ ~~prison~~ see since January I've been filling out special purchase forms for new T.V. typewriter and other items I'm allowed, but since my case has been on T.V. this officer has been hating on me, and throwing away my order forms, and my religious chrono. Never had this problem before. I could see if it happen only once but five times in a row. The items have to be approved first, and I'm allowed the items. It's their way of punishing me even more.

what started me talking now? well its kinda like this. I buried Chevy for Herzog, it was suppose to have been a riding accident. That was 1984 when I started coaching back in my memory and realizing Herzog lied to me, he never explained Chevy's blood in cabin. Then when he came back that next morning with Cyndi in the trunk of my car. I'd always listen really close, at first we all thought Loren and his stories, well that well was just one of Herzogs stories. The DNA tests should come back Joann Hobson, Herzog gave her name, then there should be a black pregnant woman him and gangmembers dumped their. These were just the start of their killing days. Then Herzog decided he want to join the Hells Angels, so he needed to build himself a reputation. Then he took on a apprentice Jason Jones, Herzog taught him how to kill and get away with it. I was tired of being

blame for things I'd not done. So I decided to start giving up Herzog's burial sites. you'll remember in his confession he says there's no more, well when Herzog caught wind I had made up my mind to find the cause of death of Cheryl and start exposing what they've done, he took himself out. I have given Jason a fair warning I told him he better run, get out of this country before I expose the next site.

Just so were clear Leonard Padilla and I had made a deal for \$33,000.00. This would take care of my restitution, headstones for parents, money in a account for my grandson, money to live on and for my burial. But Leonard has used the media as a selling tool for his business. As of today I've not seen a dime. Leonard told my ex-wife Sherrie he had 33 thousand on account all I had to do was give location. so in good faith I gave one, when they could not find that I gave two more, then they found all 3 sites. Now when I asked him to send me \$33,000.00 and he was writing a check, that was all for the media, once they left that check was torn up. I don't believe Leonard plans to keep his deal, which is a shame because he will not get another site, no one will tell I had what I agreed upon. It's also a shame in another way, you would not believe the mail I'm receiving from other prisons, people wanting to know if I've got paid, they have information about victim/bodies. no I just tell them the truth, I've not got paid. don't believe Leonard Padilla and all the B.S. Now I really hope I have to eat my words, but I don't believe I will. when these inmates learn not to trust Leonard, it will spread fast to all the prisons. should I by chance get paid, I'll have no

choice BUT To write you and All The other media
and all the different prisons and correct my statement
but I don't see it happening.

1994. Herzog Kills a Utah hunter, how do I know
because Herzog Talked about it and we both
were in Utah 1994. really wish I could say I
was not there that year, but I was.

it was not a relief To watch Stockton sheriff make
a ~~mess~~ mess out of that well, They should have
dug outside that well a few feet, Then went in
from bottom, or Then Took the well wall down
little by little. That Stockton sheriff office just
crushed, busted the boxes all To pieces. They can
try and claim that ~~in~~ in the media, but
their some stupid ~~cop~~ cops. if someone does not
point them To the spot they won't look, lazy
cops are. its no wonder they have so many missing
people, you've got To think outside the box.

their are more, this was just the start. I really don't
know if I want To help after that mess they made.

I'm looking at your letter heading, so you must know by
now Escalante Ballata Road is the main Road that
takes you straight into mordas to, what I'm getting
at is he took people from their To.

well I'm gonna close here for now. I could use two books
stamps. and a \$50.00 I-pay or money order. That's how
bad I'm doing.

-Sincerely wesley
